Italian Artisans Reunited

Bespoke Design has a name... it's called SSD Contract. We are a group of Italian artisan companies brought together to give maximum freedom to creatives, builders and architects, to produce at the best market price and offer a complete service. We produce lighting, furniture and coverings only Made in Italy. SSD Contract is not a simple supplier but a 360-degree global partner. SSD Contract is the result of 25 years of experience by Sandro Santantonio, a designer who, after collaborating with brands all over the world, decided to found his own production company. He has received numerous international awards such as the first Abitare il Mare award, the Young & Design special award, the Good Design Award, the Compasso D'Oro mention, the Nomination Design Award of the Federal Republic of Germany, the International Festival special award of the Film of Rome and the GUM Department Mebelissima award. Of great importance is the collaboration with the Packard Humanities Institute Foundation, Pitti Immagine, Prada, Sanremo Festival, X-Factor, Big Brother, Mai dire Goal, Buona Domenica, Trenta Ore per la Vita and Miss Italia. Lastly, SSD Contract has the pleasure of holding lessons at the Brera Academy of Fine Arts in Milan, the Lecce Academy of Fine Arts, the ISAD institute in Milan and the Giannelli Art School in Parabita.
